Objectives and activity plan

Objectives

The following is the list of your objectives and your estimated yearly activity targets. Please consider these objectives carefully when requesting your activities in the next section. Above all, you should make sure that the activities you request can contribute to achieving your objectives - this will be one of the key measures for evaluating your activities once they are finished.

Planned activities

The following table shows your estimated yearly targets for number of activities and participants as indicated in your Quality Label.

These are provided for information and you can deviate from them. Working on reaching your objectives is more important than reaching a specific number of activities or participants.

Sample

Activities

Requested activities

In this section, you are requested to enter information on the activities you intend to implement in the frame of this grant request.

How does the grant request work?

Based on the information provided in this section, a budget will be generated using a system of average costs. At final report level, your final grant will be calculated based on the exact flows of participants and associated unit costs as defined in the European Solidarity Corps Guide.

The figures that you provide in the first table below will also serve as your targets for implementation. If the National Agency is not able to provide funding for all of your requested activities and/or participants, the targets included in your grant agreement will be adjusted accordingly. At the end of the grant agreement, your results will be evaluated based on the agreed target figures. For this reason, it is important to make the most realistic request possible, rather than the most ambitious one. During implementation, the actual number of participants and duration of activities may vary, but the system will allow reasonable adjustments. You should always be able to explain your choices in relation to your objectives.

Please complete the following table with the required information for each type of activity you have chosen.

Sample

Activity type	Priority Level	Number of activities	Number of participants	Number of participants in in-country activities	Average duration (in days)	Number of preparatory visits	Total number of persons taking part in preparatory visits
		0	0	0	0		0

Proportion of Participants per Activity Type

Please complete the following table by setting policy priorities targets for each activity type. This information will be used in the scoring of your grant request. The targets set here will become a part of your grant agreement. At the end of the grant agreement, your results will be evaluated based on the agreed target figures set. For this reason, it is very important to make the most realistic estimations. The policy priorities are described in the Programme Guide and the budget allocation documentation published on the website of your National Agency.
